SCOTT REACHED EXTREME SOUTH

The report that Captain Robert Falcon Scott had reached the South Pole is confirmed by a telegram from Wellington, N. Z., sent by Amundsen, the Norwegian explorer, who headed another expedition, which failed to reach

Captain Scott started on his expedition from Port Chalmers, New Zealand, on November 29, 1910. He was well equipped for this dash for the farthest south, having made a previous expedition under the direction of the Royal Geographical Society. At that time he attained a record of 82 degrees 30 minutes, which remained the record up to the time of Lieutenant Shackleton's notable exploit. Lieutenant Shackleton pushed farther south, and in 1907 reached 88 degrees, 23 minutes, or about 100 miles from the south pole. This remained the record and inspired the hardy navigators of many nations to attempt the culminating feat of reaching the pole itself. Captain Scott took the route by way of Australia and New Zealand. He sailed due south into Ross Sea, a stretch of water reaching toward the

Captain Scott planned to follow the same land trail that Shackleton had taken. This is along a mountain range, thought to be an extension of the Andes range, running southward thru

Sea, Captain Scott debarked his party ships, though these carry only four 12from his ship, the Terra Nova. THOUSANDS OF MEN WERE BLOOD-THIRSTY

Wild Excitement in Jacksonville Caused by Attempt to Lynch the Murderers of Silverstein

Jacksonville, March 8 .- A mob of fully 5,000 determined men gathered around the county jail here last night with the avowed purpose of lynching five negroes arrested charged with the murder of S. Silverstein.

The mob gathered downtown at one of the busiest corners, but the fire department was called out and dispersed them by turning on the water. The mob then moved to the jail where they stoned the police and broke the windows in the lower floor of the jail.

Entire Police Force Out Every available policeman in Jacksonville was rushed to the county jail at 10:45 o'clock and after much difficulty succeeded in driving the mob from the streets around the jail to a distance of two blocks away. Another mob formed in Dignan's Park but the police and Sheriff Bowden, assisted by military officers, declare they have the

situation in hand. The first mob which formed at the jail was led by a plucky little German woman who defied the police and urged the mob of men to follow. She got as far as the jail door, when she was nabbed by an officer and rushed inside, while the police, with drawn rifles, pushed the mob away.

One member of the fire department refused to turn on the water when ordered to do so by the chief and was discharged on the spot, the chief among cheers and hisses from the mob taking charge of the hydrant, but very little water was thrown. Military companies are on duty at the armory ready to march on the mob at a moment's notice.

Passengers on the southbound trains his afternoon say that after some heads had been broken and a few arrests made, the excitement in Jacksonville simmered down and the mob dispersed.
